• Concitus

Software Engineer

Dhaka, Bangladesh

Oct. 2018 - April. 2019

- Creating healthcare related web applications Using Python, Django, PostgreSQL, Celery, Redis and VueJS.
- Creating Content Management Systems using Django-Wagtail.

Skills

- Software Engineering
 - **Languages:** Python, Java, Javascript, C++, C
 - **Frameworks:** Django(/REST), FastAPI, Angular, React Native, Celery, Spring MVC/Boot
 - **Machine Learning/Data Science:** Pytorch, Numpy, Pandas, SciPy, Tensorflow
 - **Database:** MySQL, PostgreSQL, Redis, SQLite, CockroachDB
 - **Mark up/down:** L^AT_EX, HTML, Markdown, reStructuredText
 - **Func/log prog:** Clojure, Haskell, Prolog
 - **Testing:** JMeter, Gatling, Cypress, Playright/PuppeteerJS
 - **Security Testing:** Burpsuite, NMap
 - **Other:** Git/Mercurial, Vim/Intellij, Postman, Arduino, BeautifulSoup, Scrapy, Selenium, jQuery, Ajax
- Systems Operations / DevOps
 - **Deployment:** nGinx/Apache/Tomcat Server administration, Kubernetes/Docker/Dokku/Heroku Deployment Virtualbox/VMware/KVM Deployment
 - Load balancing using Haproxy, nGinx
 - **Unix/Linux:** Distros: Debian(Ubuntu), Centos(Fedora), etc.
 - Shell Scripting, Ansible

Certification

- **Level-2 Fundamental Information Technology Engineer(ITFE)**
Full Passer

ITPEC, JICA, BCC
October 2018

Projects

- **It-Connect:** A helpdesk for aiding ITES development for foreign countries. It is a web system developed under the supervision of WB funded LICT-ITES project. I designed and developed the frontend of UK and Netherland portal using Angular and parts of the monolithic backend using Spring MVC. [<https://bhcl.itconnect.gov.bd>]
- **GRP:** Government Resource Planning application of Government of Bangladesh. I worked at the frontend of the Payment submodule of the HRM module which is responsible for disbursing the salary of GoB employees. [<https://grp.gov.bd>]
- **HIS:** Health Information System application of BCC. I designed and developed the web application using Django, MySQL. [<https://his.bcc.gov.bd>]
- **e-Recruitment:** Recruitment system of BCC. I performed, load/stress testing, automated UI functionality testing, integration testing and server administration. [<https://erecruitment.bcc.gov.bd>]
- **Boithok:** Video conferencing system of ICTD. I performed, load/stress testing, functionality testing of the system and the android application. [<https://vc.bcc.gov.bd>]
- **Covid19Tracker:** Covid19 Tracker application developed by BNDA. I developed the analytics dashboard using d3js. [<http://covid19tracker.gov.bd>]
- **FPS:** Foodgrain Procurement System of Food Department of GoB. I performed load/stress testing, UI testing. [<http://fps.dgfood.gov.bd>]

Communication Skills

- **Bangla:** Native Language
- **English:** Full Professional Proficiency
- **German:** Limited Working Proficiency

Co-curricular activities

- 16 times blood donor for Badhan.
- Volunteer, BUET CSE Festival 2011, 2013, 2015 Inter University Project Show (IUPS)
- Contributor, Bengali Language Wikipedia [<https://bn.wikipedia.org/wiki/User:Desertsnip87>]

Reference

- Abu Wasif
Assistant Professor
ECE Building, Room No. 403, BUET
